# AgentVal

A free instant online valuation tool that is fully branded to your business and can easily be integrated into your website.*

Features

- Add our Automated Valuation Model (AVM) to your website and personalise with your branding
- Capture prospective valuation leads and provide a richer consumer experience on your website
- Available 24/7, 365 days a year
- User has the option to request a full agent valuation from that branch at the end of the instant valuation process

How does it work?

When a prospective vendor completes the agent valuation form, the lead is delivered to you from us in the usual way and you also receive an automated phone call with the users' contact details.
