

Only With Us replaces New & exclusive

Display your properties as Only With Us for a period of your choice before advertising on other portals to target serious property seekers at the very beginning of their home search. If you only list with OnTheMarket you can list all your properties exclusively and your listings will always feature our Only With Us label. Alternatively, you can choose to list your properties 24 hours or more before they are released to Rightmove or Zoopla.

Only With Us listings generate on average **TWICE*** as many email leads in the first 24 hours compared with other standard new listings.

Features

- Only With Us property listings get a prominent position on our search results pages and in property alert emails
- Highlighting that time is of the essence, we have added a new countdown clock feature to show consumers what time remains until Only With Us listings will be made available to other portals, while listings totally exclusive to OnTheMarket are still labelled as Only With Us but do not feature the countdown clock

How to list your properties as Only With Us

Whether you upload your properties manually via OnTheMarket Expert or use a feed provider, call us on **0808 1202 877** (option 3) or send us an email to support@onthemarket.com and our support team will be happy to help.

*Uplift based on data for the period January 2021 – December 2021.
