Features and benefits

Over 50% automation

Experience significant time savings by automating administrative tasks, enabling you to remain open 24/7. Automation increases to 80% when used with TechHub.

Single contact records

Leads seamlessly flow into TecCRM from all portals and your website with all customer's buyer, seller, renter and landlord history consolidated into a single contact record.

Revenue through integrations

Boost your bottom line with additional revenue opportunities, leveraging our network of trusted partners seamlessly integrated with TecCRM.

Device compatible

An easy-to-use platform accessible across a range of devices, including Apple and Android, wherever you are.

Comprehensive reporting

Robust reporting provides in-depth insights into your business through an intuitive dashboard and scheduled reports to track key metrics and monitor progress.

Two-way communication

A digital record of all communications with customers including SMS, WhatsApp and email, with all replies added to their record and valuable insights into activity.

100% compliance

Worry free compliance with in-built AML checks and constant workflow monitoring, ensuring 100% compliance, 100% of the time.

Free training and support

It's free to set up, and you'll receive training and ongoing support included.
